

LAURA N. LOWES

Curriculum Vitae

EDUCATIONAL HISTORY

University of California, Berkeley, CA

Ph.D., Civil Engineering

December 1999

Dissertation: *Finite Element Modeling of Reinforced Concrete Beam-Column Bridge Connections*

University of California, Berkeley, CA

M.S., Civil Engineering

May 1993

University of Washington, Seattle, WA

B.S., Civil Engineering, *Summa Cum Laude*

June 1992

EMPLOYMENT HISTORY

University of Washington, Seattle, WA

Professor, Dept. of Civil and Environmental Engineering, 2015-present

Implementation Lead for Public Good, College of Engineering, 2022-2023

Chair, Dept. of Civil and Environmental Engineering, 2017-2022

Associate Chair, Dept. of Civil and Environmental Engineering, 2015-2017

Associate Professor, Dept. of Civil and Environmental Engineering, 2007-2015

Assistant Professor, Dept. of Civil and Environmental Engineering, 2000-2007

Stanford University, Stanford, CA

Assistant Professor, Dept. of Civil and Environmental Engineering, 1999-2000

University of California, Berkeley, CA

Graduate Student Researcher, Dept. of Civil and Environmental Engineering, 1993-1999

AWARDS AND HONORS

American Concrete Institute Ambassador 2024

CEE Department JEDI Award, 2022

Puget Sound Council of Engineering, Academic Engineer of the Year, 2020

ASCE Moisseiff Award, 2017

William M. and Marilyn M. Conner Endowed Professorship in Civil and Environmental Engineering, 2016 - 2021

Fellow, American Concrete Institute, 2010 (ACI member since 1996)

Outstanding Earthquake Spectra Paper, 2007, Earthquake Engineering Research Institute

George D. Nasser Award, 2005, Precast / Prestressed Concrete Institute

Japan Society for Promotion of Science, 2002, Short-Term Fellowship
Terman Fellowship, School of Engineering, 1999-2000, Stanford University
Fellowship, 1992-1997, Fannie and John Hertz Foundation
Graduate Fellowship, 1992–1995, National Science Foundation (declined)

PUBLICATIONS

Refereed archival journal publications

h-index (9/30/26): **41**

i10-index (9/30/26): **78**

Total Google Scholar citations (5/13/26): **7261**

Presentations given at conferences (presenter's name identified by bold text)

1. A Sen¹ **LN Lowes**, "Evaluation of ASCE/SEI 41-17 Procedures for Assessing the Seismic Vulnerability of an Earthquake Damaged RC Wall Building." fib Symposium, Christchurch, New Zealand, 11-13 November 2024.
2. **LN Lowes**, K Ahmed, A Behrouzi, DE Lehman, "Finite Element Analysis of Concrete Walls for Advancement of Design and Performance Assessment." 18th World Conference on Earthquake Engineering, July 2024, Milan, Italy.
3. **LN Lowes**, DE Lehman, I Kim, "Nonlinear Modeling of Slender Concrete Walls for Design and Assessment." 18th World Conference on Earthquake Engineering, July 2024, Milan, Italy.
4. **LN Lowes**, "Using NHERI RAPID Equipment to Collected Data Characterizing the Performance of Concrete Structures." ACI Convention, New Orleans, 25 March 2024.
5. **LN Lowes**, P Calvi, E Che, T Sweet, J Berman, "Characterizing Damage to a Full-Scale Building Test Specimen Using Lidar." NHERI Computational Symposium, Los Angeles, 1-2 February 2024.
6. **LN Lowes**, J Stokley, "Calibration and Validation of an OpenSees Model for Reinforced Concrete Walls Using NHERI SimCenter and DesignSafe Resources." fib Symposium, Istanbul, Turkey, 5-7 June 2023.
7. **LN Lowes**, J Stokley, "Calibrating an OpenSees Model for RC Walls" SimCenter Symposium, Austin, TX November 2022.
8. **LN Lowes**, J Stokley, "Calibrating an OpenSees Model for RC Walls" SimCenter Symposium, Using the quoFEM Application and DesignSafe Resources", Richmond, CA, September 2022.
9. **LN Lowes**, J Stokley, "Using NHERI SimCenter Software and NHERI DesignSafe Computing Resources to Calibrate an OpenSees Model for Reinforced Concrete Walls" 12th National Conference on Earthquake Engineering, Salt Lake City, UT, June 2022.
10. **LN Lowes**, R Yu, DE Lehman, S Campbell, "Behavior and Design of Lightly Reinforced Concrete Walls", ACI Convention, Orlando, FL, March 2022.
11. **LN Lowes**, "Using New Tools to Calibrate and Validate OpenSees Models for RC Walls," PEER Annual Convention, August 2021.
12. **LN Lowes**, DE Lehman, "Guidance on Nonlinear Modeling of RC Buildings," ACI Convention, Los Angeles, CA, October 2019.
13. **LN Lowes**, J Sumearl¹, DE Lehman, "Evaluation of Seismic Assessment Procedures for Existing Reinforced Concrete Structures Damaged in the 2016 Meinong Earthquake," ACI Convention, Los Angeles, CA, October 2019.
14. **LN Lowes**, DE Lehman, "Recommendations for Modeling Slender Reinforced Concrete Walls Using PERFORM," Eleventh US National Conference on Earthquake Engineering, June 2529, 2018.

15. **LN Lowes**, DE Lehman, “Modeling Recommendations for Flexure-Controlled Reinforced Concrete Walls: Proposed Updates to ASCE 41”, Eleventh US National Conference on Earthquake Engineering, June 25-29, 2018.
16. **K Ahmed**¹, LN Lowes, DE Lehman. “Nonlinear Finite Element Analysis of Planar and Nonplanar Structural Walls,” Engineering Mechanics Institute Conference, MIT and University of Massachusetts, Boston, MA, May 2018.
17. **K Ahmed**¹, N Marafi, DE Lehman, LN Lowes. “Comparing the Collapse Resistance of Solid and Coupled Walls,” ASCE Structures Congress 2018, Fort Worth, TX, April 2018.
18. **Marafi**¹ NA, Ahmed¹ K, Lowes LN, Lehman DE (2018). “Variability of Collapse Probability of Solid and Coupled-Wall Archetypes”. Building Seismic Safety Council, KPFF Seattle, WA, January 2018.
19. **K Ahmed**¹, A Shegay¹, DE Lehman, LN Lowes, C Motter, KJ Elwood, RS Henry. “Selection Criteria for Finite Element Software for Simulation of Flexural RC Walls” ACI Convention, Anaheim, CA, October 2017.
20. **J Hua**¹, M Eberhard, LN Lowes. “A multi-Mechanism Seismic Shear Strength Model for Reinforce Concrete Columns.” 15th The East Asia-Pacific Conference on Structural Engineering and Construction Xi'an China, October 2017.
21. **LN Lowes**, DE Lehman. “ATC 114” ACI Convention, Los Angeles, CA, October 2017.
22. **LN Lowes**, DE Lehman, Z. Whitman¹, A. Behrouzi¹. “High-Resolution Finite Element to Investigate Behavior and Design of Flexural Walls” ACI Convention Los Angeles, CA, October 2017.
23. **LN Lowes**. “Simulating Failure Mechanisms in RC Components: Successes and Current Challenges” ASCE/EW Structures Congress, Denver, CO. April 2017.
24. Z Whitman¹, **LN Lowes**, DE Lehman. “Investigation of RC Wall Failure Mechanisms Using Numerical Simulation,” ACI Convention, Milwaukee, MN, April 2016.
25. **LN Lowes**, DE Lehman, C Baker¹. “Recommendations Modeling Slender RC Walls Using PERFORM,” SEAOC Convention, Maui, HI. October 2016.
26. **DE Lehman** , LN Lowes. “Recommendations for the Analysis of Flexural Concrete Walls,” ATC/SEI 2nd Conference on Improving the Seismic Performance of Existing Buildings and Other Structures, San Francisco, CA. December 2015.
27. JS, Jeon¹, **LN Lowes**, R DesRoches “Performance Evaluation for Joints in Reinforced Concrete Building Frames.” ATC/SEI 2nd Conference on Improving the Seismic Performance of Existing Buildings and Other Structures, San Francisco, CA. December 2015.
28. **LN Lowes**, DE Lehman, JS Pugh¹, Z Whitman¹, C Baker¹. “Nonlinear Analysis for Earthquake Performance Assessment of Flexural Concrete Walls,” ATC/SEI 2nd Conference on Improving the Seismic Performance of Existing Buildings and Other Structures, San Francisco, CA. December 2015.
29. JS Pugh¹, **LN Lowes**, DE Lehman. “Seismic Design of Concrete Walled Buildings,” 2nd European Conference on Earthquake Engineering and Seismology, Istanbul, Turkey. August 2014. ATC/SEI
30. **AC Birely**¹, LN Lowes, DE Lehman, A Aviram, DJ. “ASCE/SEI 31/41 Evaluations of Buildings Damaged in the 2010 Maule, Chile Earthquake,” 10th National Conference in Earthquake Engineering, Anchorage, AK, July 2014.

31. **A Aviram**, DJ Kelly, AC Birely¹, LN Lowes, DE Lehman. “Disparate damage levels from the 2010 Maule, Chile earthquake in two similar reinforced concrete shear wall buildings,” *10th National Conference in Earthquake Engineering*, Anchorage, AK, July 2014
32. **PM Clayton**¹, DM Dowden, CH Li, JW Berman, M Bruneau, KC Tsai, LN Lowes. “Advances in Self-Centering Steel Plate Shear Wall Testing and Design,” *10th National Conference in Earthquake Engineering*, Anchorage, AK, July 2014
33. **MM Kashani**¹, LN Lowes, AJ Crewe, NA Alexander. “Implementation of Corrosion Damage Models in Nonlinear Fiber Beam-Column Element,” *10th National Conference in Earthquake Engineering*, Anchorage, AK, July 2014
34. JS Pugh¹, **LN Lowes**, DE Lehman. “Seismic Design of Slender Concrete Walls,” *10th National Conference in Earthquake Engineering*, Anchorage, AK, July 2014
35. **LN Lowes**, DE Lehman. “The Observed Performance of RC Walls and Walled Buildings and Recommendations for Design” ACI Convention, Phoenix, AZ, October 2013.
36. K Price¹, **D Fields**, LN Lowes. “High Strength Reinforcement: Where does it make sense?” ACI Convention, Phoenix, AZ, October 2013.
37. **L.N. Lowes**, D.E. Lehman, J. Pugh¹, D. Kuchma, A. Behrouzi, A. Mock “Behavior and Analysis of C-Shaped Walls,” NEES Annual Meeting, Reno, NV. August 2013.
38. **MM Kashani**¹, A. J. Crewe, N. A. Alexander, L. N. Lowes & M. O. Eberhard “Experimental investigation and computational modelling of corrosion induced mechanical-geometrical degradation of reinforcing bars,” ICOSAR 2013, 11th International Conference on Structural Safety and Reliability, Columbia University, New York, NY June 2013.
39. **JS Jeon**¹, R. DesRoches, I. Brilakis & L.N. Lowes “Comparison of fragility curves for an older RC frame with column and beam-column joint shear models,” ICOSAR 2013, 11th International Conference on Structural Safety and Reliability, Columbia University, New York, NY June 2013.
40. **JS Jeon**¹, R. DesRoches, I. Brilakis, LN Lowes “Aftershock Probabilistic Seismic Demand Model of Damaged Non-Ductile Reinforced Concrete Frames in California,” ASCE Structures Congress, Pittsburgh, PA, May 2013.
41. **PM Clayton**¹, DM Dowden, CH Li, JW Berman, M Bruneau, LN Lowes, KC Tsai “ASCE 31/41 Evaluation of Damaged Chilean Walled Buildings,” ASCE Structures Congress, Pittsburgh, PA, May 2013.
42. **PM Clayton**¹, DM Dowden, CH Li, JW Berman, M Bruneau, LN Lowes, KC Tsai (2013) “Full-Scale Testing of Self-Centering Steel Plate Shear Walls,” ASCE Structures Congress, Pittsburgh, PA, May 2013.
43. **L.N. Lowes**, D.E. Lehman, J. Pugh¹, D. Kuchma, A. Behrouzi, A. Mock “Behavior and Analysis of C-Shaped Walls,” NEES Annual Meeting, Boston, MA. July 2012.
44. **D.E. Lehman**, L.N. Lowes, A.C. Birely¹, J.A. Turgeon¹, D. Kuchma, C.R. Hart, K.P. Marley “Seismic Behavior of ACI-Code Designed Slender Planar and Coupled Walls,” SEAOC Annual Meeting, September 2011.
45. **L.N. Lowes**, D.E. Lehman, J.A. Turgeon¹, A.C. Birely¹, J. Pugh¹, D. Kuchma, C.R. Hart, K.P. Marley “NEES Small-Group Research Project: Seismic Behavior, Analysis and Design of Complex Wall Systems,” NEES Annual Meeting, June 2011, Buffalo, N.Y.

46. **J. Li¹**, L.N. Lowes “Finite Element Analysis of Bond For Reinforced Concrete Structures,” Third fib International Congress 2010, May 2010, Washington, D.C.
47. **J. Li¹**, L.N. Lowes “3D Motion Estimation for Reinforced Concrete Bond-Zone Using Volumetric Image Data,” Annual Conference of the Engineering Mechanics Institute, 8-11 August 2010, Los Angeles, CA.
48. Baldvins¹, N., **Berman, J.W.**, Lowes, L.N., Low¹, N., and Janes¹, T. “Performance Based Design Tools for Steel Plate Shear Walls” ASCE/SEI Structures Congress and North American Steel Construction Conference, Orlando, FL, April 2010. Poster presentation.
49. **L.N. Lowes**, J. Li¹, “Fragility Curves for Reinforced Concrete Moment Frames,” 2009 ATC&SEI Conference on Improving the Seismic Performance of Existing Buildings and Other Structures, San Francisco, December 2009.
50. A. Birely¹, **L.N. Lowes**, D.E. Lehman, “A Practical Model for Beam-Column Connections Behavior in Reinforced Concrete Frames,” 2009 ATC&SEI Conference on Improving the Seismic Performance of Existing Buildings and Other Structures, San Francisco, December 2009.
51. P. Oyen¹, **L.N. Lowes**, D.E. Lehman, “Evaluation and Calibration of Load-Deformation Models for Concrete Walls,” Thomas T. C. Hsu Symposium on Shear and Torsion in Concrete Structures, ACI Fall Convention, November 2009, New Orleans, LA.
52. A. Birely¹, **L.N. Lowes**, D.E. Lehman, “Practical Modeling of Reinforced Concrete BeamColumn Joints,” ACI Fall Convention, November 2009, New Orleans, LA.
53. D.E. Lehman, **L.N. Lowes**, A. Birely¹, D. Kuchma, C. Hart, K. Marley, “NEES Small-Group Research Project: Seismic Behavior, Analysis and Design of Complex Wall Systems,” 2009 Annual Meeting of the Pacific Earthquake Engineering Research Center, October 2009, San Francisco, CA.
54. **L.N. Lowes**, D.E. Lehman, A. Birely¹, D. Kuchma, C. Hart, K. Marley, “Investigation of the Seismic Response of Slender Concrete Walls,” 3rd International Conference on Advances in Experimental Structural Engineering, October 2009, San Francisco, CA.
55. L.N. Lowes, D.E. **Lehman**, A. Birely¹, J. Pugh, D. Kuchma, C. Hart, K. Marley, “Investigation of the Seismic Response of Slender Concrete Walls.” 2009 SEAOC Convention, September 2009, San Diego, CA.
56. **J. Li¹**, L.N. Lowes, “Progressive Bond Failure Investigation Using X-Ray Tomography,” The 2009 Joint ASCE-ASME-SES Conference on Mechanics and Materials, June 2009, Blacksburg, VA.
57. **J. Li¹**, L.N. Lowes, “Finite Element Modeling of Bond for Reinforced Concrete Structures,” The 2009 Joint ASCE-ASME-SES Conference on Mechanics and Materials, June 2009, Blacksburg, VA.
58. **L.N. Lowes**, D.E. Lehman, A. Birely¹, D. Kuchma, C. Hart, K. Marley, “NEES Small-Group Research Project: Seismic Behavior, Analysis and Design of Complex Wall Systems,” NEES and NSF CMMI Annual Meeting, Honolulu, HI, June 2009.
59. **A. Birely¹**, L.N. Lowes, D.E. Lehman, “Practical Modeling of Reinforced Concrete BeamColumn Joints,” Annual Meeting of the Center for Urban Earthquake Engineering, Tokyo, Japan, March 2009.

60. "Investigation of the Seismic Behavior and Analysis of Reinforced Concrete Structural Walls." 14th World Conference on Earthquake Engineering. October 2008 Beijing, China. Presentation by A. Birely¹.
61. "Evaluation of Practical Methods for Analysis of Reinforced Concrete Walls," 2008 NEES Annual Meeting. June 2008, Portland, OR.
62. "Evaluation of Practical Methods for Analysis of Reinforced Concrete Walls," 2008 Structures Congress and Exposition. 24-26 May 2008, Vancouver, B.C.
63. "Investigation of the Seismic Behavior and Analysis of Reinforced Concrete Structural Walls Using the UIUC NEES Facility," 2007 Structures Congress and Exposition. 16-19 May 2007, Long Beach, CA.
64. "Performance-Based Design and Nonlinear Modeling of Coupled Shear Walls and Coupling Beams," Structures Congress and Exposition. 16-19 May 2007, Long Beach, CA.
65. "Evaluation of Blind Predictions of the Response of Beam-Column Joints," ACI Spring Convention, 22-26 April 2007, Atlanta, GA.
66. "Blind Prediction of the Response of Beam-Column Joints Using a Joint Super Element," ACI Spring Convention, 22-26 April 2007, Atlanta, GA. Presented by N. Mitra¹.
67. "Practical Model of RC Beam-Column Joints," PEER Center Annual Meeting. San Francisco, CA. January 2007. Poster presented by A. Birely¹.
68. "Modeling the Behavior of Large Scale Shake Table Tests Using Linear Elastic Time History Methods," NEES/UCSD Seminar on Analytical Modeling of Reinforced Concrete Walls for Earthquake Resistance. San Diego, CA. December 2006. Presentation by B. Doecker¹.
69. "Probabilistic Evaluation of Seismic Performance of 3D One-Way and Two-Way Steel Moment-Frame Structures." STESSA 2006: Behavior of Steel Structures in Seismic Areas. Yokohama, Japan. August 2006. Presented by H. Tagawa¹.
70. "Seismic Behavior, Analysis and Design of Complex Wall Systems." Eighth National Conference on Earthquake Engineering. San Francisco, CA. April 2006.
71. "Modeling Non-Ductile RC Components and Application to the PEER Van Nuys Testbed." Eighth National Conference on Earthquake Engineering. San Francisco, CA. April 2006.
72. "Modeling the Behavior of Reinforced Concrete Beam-Column Building Joints Subjected to Earthquake Loading." Eighth National Conference on Earthquake Engineering. San Francisco, CA. April 2006. Poster presented by N. Mitra¹.
73. "Dynamic Instability by Link-Element Deformation in Framed-Tube Structures." Eighth National Conference on Earthquake Engineering. San Francisco, CA. April 2006. Poster presented by H. Tagawa¹.
74. "Strut-and-Tie Modeling for Seismic Design." ACI Convention. Charlotte, NC. March 2006.
75. "Strut-and-Tie Modeling of Interior Beam-Column Joints for Seismic Design." ACI Spring Convention. Charlotte, NC. March 2006.
76. "OpenSees Development and Validation Efforts at University of Washington." OpenSees Developers Symposium. Berkeley, CA. August 2005.
77. "EDP-DM-DV Relationships for RC Components." PEER Center Annual Meeting. Walnut Creek, CA. April 2005.

78. "Seismic Behavior, Analysis and Design of Complex Wall Systems." National Science Foundation and NEES Consortium Inc. NEESR-05 Informational Webcast. December 2004.
79. "Modeling the Response of RC Beam-Column Joints." 13th World Conference on Earthquake Engineering. Vancouver, B.C. Canada. August 2004. Presented by N. Mitra¹
80. "Evaluation of 1D Simple Structural Models for 2D Steel Frame Structures." 13th World Conference on Earthquake Engineering. Vancouver, B.C. Canada. August 2004. Poster presented by H. Tagawa¹.
81. "Evaluation and Mitigation of P-D Effects on 2D Frame Behavior." The Annual Stability Conference, Long Beach, CA. March 2004. Presented by H. Tagawa¹.
82. "Evaluation and Mitigation of P-D Effects on 2D Frame Behavior." STESSA 2003: Naples, Italy. June 2003. Presented by H. Tagawa¹.
83. "Modeling the Earthquake Response of Reinforced Concrete Beam-Column Joints." 2003 ASCE/SEI Structures Congress and Exposition: Engineering Smarter, Seattle, WA. May 2003. Presented by M. Mormann¹.
84. "The Impact of Bond on the Response of RC Beam-Column Joints." US-Japan Workshop on Finite Element Analysis of Reinforced Concrete. Maui, Hawaii. November 2003.
85. "Modeling the Earthquake Response of RC Joints." International Conference on Advances and New Challenges in Earthquake Engineering Research. Harbin, China. August 2002.
86. "Modeling the Response of RC Beam-Column Joints." ASCE/SEI Structures Congress. Denver, Colorado. April 2002.
87. "A Concrete-Steel Bond Model for Use in Finite Element Modeling of Reinforced Concrete Structures," American Concrete Institute, Toronto, Canada, October 2000.
88. "Seismic Response of Anchored Headed Reinforcement," American Concrete Institute, Toronto, Canada, October 2000.
89. "Seismic Response of Anchored Headed Reinforcement," American Concrete Institute, San Diego, California, March 2000.
90. "Analysis of Reinforced Concrete Beam-Column Bridge Connections," John A. Blume Center Affiliates Meeting, Stanford, California, May 1999.
91. "Analysis of Reinforced-Concrete Beam-Column Bridge Joints," Sixth U.S. National Conference on Earthquake Engineering," Seattle, Washington. June 1998.
92. "Performance and Design of Constructible Beam-Column Connections," Fourth Caltrans Seismic Research Workshop, Sacramento, California. July 1996.
93. "Behavior and Rehabilitation of Beam-Column T-Joints in Older Reinforced-Concrete Bridge Structures," 11th World Conference on Earthquake Engineering. Mexico. June 1996.
94. "Rehabilitation of Older Reinforced-Concrete Bridge Joints," SEMM Student Colloquia, University of California, Berkeley. September 1995.
95. "Behavior and Rehabilitation of Older Reinforced-Concrete T-Joints," Fourth U.S. Conference on Lifeline Earthquake Engineering, San Francisco, California. April 1995.
96. "Behavior and Retrofitting of Older Reinforced-Concrete Tee-Joints," Third Annual Caltrans Seismic Research Workshop, Sacramento, California. June 1994.

Professional society memberships.

American Concrete Institute, Fellow 2010, full member since 1999.

American Society of Civil Engineers, full member since 1999.

Earthquake Engineering Research Institute, full member since 1999.

GRADUATE STUDENTS

Chaired Doctoral Degrees

Student Name	Thesis Title	Completed	Current Employer
Kamal Ahmed, co-chair Lehman	Investigation of the Earthquake Response of Squat Concrete Walls Using Nonlinear Finite Element Modeling	June 2021	WSJ, Seattle, WA
Joshua Pugh, co-chair Lehman	Numerical Simulation of Walls and Seismic Design Recommendations for Walled Buildings	December 2012	EDG, Inc., Houston, TX
Anna Birely, co-chair Lehman	Seismic Performance of Slender Reinforced Concrete Structural Walls	December 2012	Texas A&M University
Jingjuan Li	An Investigation of Behavior and Modeling of Bond for Reinforced Concrete	June 2010	KPFF, Seattle
Nilanjan Mitra	An Analytical Study of Reinforced Concrete Beam-Column Joint Behavior under Seismic Loading	Dec. 2006	Indian Institute of Technology, Kharagpur
Hiro Tagawa co-chair MacRae	Towards an Understanding of Seismic Performance of Three-Dimensional Structures: Stability and Reliability	June 2005	General Building Research Corporation of Japan

Chaired Masters Degrees

Student Name	Level of Supervision	Thesis/Paper Title	Completed (Year)	Current Employer
J Stokley	Thesis	Calibration of a Layered Shell Element for Simulating the Response of RC Walls.	March 2023	Boeing, Everett
R Yu, co-advisor Lehman	Thesis	Finite Element Investigation of Insulated Concrete Form Walls	August 2021	MKA, Seattle
J. Sumearll co-advisor Lehman	Thesis	Evaluation of ASCE 41 for Exiting RC Buildings	August 2019	KPFF, Seattle
T. Tsogbadrakh, co-advisor Lehman	Project	Evaluation of Buckling Models for Simulation of Slender Wall Response	June 2017	Google, Seattle
Carson Baker, coadvisor Lehman	Project	Recommendations for Modeling Slender Wall Response using PERFORM	June 2016	CPL, Seattle
Zach Whitman cochair Lehman	Thesis	Investigation of the Earthquake Response of Slender Concrete Walls Using Nonlinear Finite Element Modeling	June 2015	CPL, Seattle

Kelsey Price	Project	Impact of High Performance Reinforcing Steel on Current Design Practice	Dec. 2013	MKA, Seattle
Cal Bearman	Thesis	Damage Prediction for Concrete Frames	June 2012	WJE, Seattle
Jacob Turgeon, Co-chair Lehman	Thesis	Seismic Behavior and Analysis of Coupled Reinforced Concrete Walls	June 2011	AGH, Inc., Minn., MN
Blake Doecker, Co-chair Lehman	Thesis	Evaluation of Practical Methods for the Evaluation of Concrete Walls	June 2008	
Anna Birely	Coursework only		June 2008	TAMU
Peter Brown	Thesis	Probabilistic Earthquake Damage Prediction for Reinforced Concrete Building Components	June 2008	
Claudio OssesHenriquez, Co-chair Lehman	Thesis	Advancements on the Disturbed Stress Field Model	Aug. 2007	KPFF, Seattle
Aaron Sterns	Project		March 2006	
Danya Mohr, Co-chair Lehman	Thesis	Nonlinear Analysis and PerformanceBased Design Methods for Reinforced Concrete Shear Walls	June 2007	MKA, Seattle
Paul Oyen, Co-chair Lehman	Thesis	Evaluation of Analytical Tools for Determining the Seismic Response of Reinforced Concrete Shear Walls	Aug. 2006	SGH, Los Angeles
Adam Theiss	Thesis	Modeling the Earthquake Response of Older Reinforced Concrete Building Joints	March 2005	MKA, Seattle
Catherine Pagni	Thesis	Modeling of Structural Damage of Older Reinforced Concrete Components	Aug. 2003	
Chaitanya Paspuleti	Thesis	Seismic Analysis of an Older Reinforced Concrete Frame Structure	Dec. 2002	

Other significant student supervision (membership on degree and/or reading committee)

Student Name	Level of Supervision	Completed (Year)	Current Employer
Addie Lederman	PhD Committee Member	2026 (exp.)	
Seungwook Seok	Co-advisor (w/ Haikal and Ramirez at Purdue U).	2019	Gachon University
Anahid Behrouzi	Co-advisor (w/ Lehman, UW and Kuchma, UIUC)	2016	CalPoly, San Luis Obispo
Travis Welt	Co-advisor during visit to UW	2015	University of St. Thomas
Andrew Mock	PhD Committee Member (UIUC)	2015	Stantec
Mehdi Kashani	Advisor during 12 mo. visit to UW	2013	University of Bristol
Olafur Haraldsson	PhD Committee Member	2015	
David Lattanzi	PhD Committee Member	2013	George Mason University
David Webster	Co-Advisor w/ Berman, UW	2013	Thornton Tomasetti
Patricia Clayton	Co-Advisor w/ Berman, UW	2013	Univ. of Texas at Austin
Jong Su Jeon	PhD Committee Member (w/ DesRoches, Brilakis, GATech)	2013	Georgia Tech
Stephanie German	PhD Committee Member (w/ DesRoches, Brilakis, GATech)	2013	Post-doctoral research, ETH Zurich
Bo-Shiuan Wang	Committee Member	2013	
M. Malakoutian	PhD Reading Committee Member	2012	
Tyler Winkley	Co-advisor (w/ Berman), MS Committee Member	2011	
Keith Palmer	PhD Committee Member	2012	SGH, San Francisco
Patricia Clayton	PhD Co-advisor (w/ Berman)	2010	Wake Forest University
Jae Won Jang	PhD Committee Member	2007	
Mike Berry	PhD Committee Member	2006	Montana State Univ.
Tyler Ranf	PhD Committee Member	2007	
Alex Lindblad	PhD Committee Member	2006	Sandia Nat. Laboratory
Jung Han Yoo	PhD Committee Member	2006	
Jon Padvorac	MS Committee Member	2008	
Tyler Sprague	MS Committee Member	2006	UW
Joshua Martin	MS Committee Member	2006	WSDOT
Gregory Banks	MS Committee Member	2004	Berger/ABAM Engineering
Haoli Camarillo	MS Committee Member	2003	
Mohan Chippada	MS Committee Member	2003	
Andrew Ayling	MS Committee Member	2003	
Tomas Tomasson	MS Committee Member	2002	
Alex Lindblad	MS Committee Member	2001	Sandia Nat. Laboratory
Jae Won Jang	MS Committee Member	2001	
Ahmad El Hussein	MS Committee Member	2001	

RESEARCH ACTIVITIES

Funded Research

Funding Agency	Title	Total Amount (My share)	Role	Dates
IBT/ABC/UTC	<i>Hyperspectral Imaging for corrosion Detection in Bridge Structures</i>	\$80,000	PI w/ co-PI Berman	1/1/26 – 12/31/26
NSF	<i>NHERI Simulation Center 2021-2025</i>	\$12.8M (\$140k)	Co-PI (UW PI) PI: de Young (UC Berkeley)	10/21-9/25
NSF	<i>NHERI RAPID Facility 2021-2025</i>	\$6.1M (\$129k)	SP PI: Wartman	9/21-9/26
PEER Center	<i>Calibration and verification of OpenSees models for simulating the response through collapse of nonplanar RC walls.</i>	\$75k (\$75k)	PI	1/21 – 1/22
NSF	<i>NHERI DesignSafe Facility 2020-2025</i>	\$6.1M (\$250k)	SP (UW PI) PI: Rathje (UT Austin)	10/20 – 9/25
NSF	<i>RAPID COLLABORATIVE RESEARCH: Japan-U.S. Collaboration on the Seismic Performance of Reinforced Concrete Structures</i>	\$135k (\$44k)	Co-PI PI: Calvi	11/19-12/20
NSF	<i>NHERI Simulation Center 2016-2021</i>	\$10.9Mk (\$140k)	Co-PI PI: Mahin (UC Berkeley)	10/16-9/21
NSF	<i>NHERI RAPID Facility 2016-2021</i>	\$5.9M (\$140k)	SP PI: Wartman	9/16-8/21
NSF	<i>NHERI Cyberinfrastructure 2015-2020</i>	\$14.4M (\$200k)	SP (UW PI) PI: Rathje (UT Austin)	7/15 – 9/20
NSF	<i>MRI: Acquisition of a 3D X-Ray Computed Tomography Scanner for Imaging of Large Size Infrastructure, Biological, and Mechanical Components</i>	\$1,023k	SP PI: Berman (UW)	8/14 – 7/17
Charles Pankow Found.	<i>Impact of High-Strength Reinforcing Steel on Current Design Practice</i>	\$50k (\$50k)	PI	1/13 – 12/14

NSF	<i>Collaborative Research: Machine Vision Enhanced Post-Earthquake Inspection and Rapid Loss Estimation</i>	\$355k (\$150k)	Co-PI PI: DesRoches (GATech)	8/10-7/14
Charles Pankow Found.	<i>Performance-Based Seismic Design of Concrete Walls</i>	\$275 (\$144k)	PI Co-PIs: Lehman (UW), Kuchma (UIUC)	10/09 – 9/12
NSF	<i>RAPID: Urgent Collection of Perishable Condition Data from Structures Affected by the Haiti Earthquake.</i>	\$40k	PI Co-PI: Eberhard (UW) Co-I: Brilakis, DesRoches (GATech), Parra-Montesinos	4/10-3/1
NSF	<i>NEESR-SG: Smart and Resilient Steel Walls for Reducing Earthquake Impacts</i>	\$1,600k (\$713k)	Co-PI PI: Berman, (UW) Co-PIs: Bruneau (UB), Fahnestock (UIUC)	10/08-9/12
NSF	<i>NEESR-SG: Performance-Based Design of Squat Concrete Walls of Conventional and Composite Construction.</i>	\$1,000k (\$275k)	Co-PI, PI: Whittaker (UB) Co-PIs: Stojadinovic (UCB), Lynn (CalPoly)	10/08-9/11
NSF	<i>MRI: Acquisition of Equipment to Simulate Collapse of Engineered Systems under Extreme Loads</i>	\$558k	Co-PI PI: Lehman (UW) Co-PIs: Roeder, Miller, Stanton (UW)	2007-2010
NSF	<i>NEESR-SG: Seismic Behavior, Analysis and Design of Complex Wall Systems.</i>	\$1,623k (\$750k)	PI Co-PIs: Lehman (UW), Kuchma (UIUC), Zhang (UCLA)	2004-2009
NSF	<i>An X-Ray Tomography Investigation of Bond in Reinforced Concrete</i>	\$330k (\$165k)	PI Co-PIs: Stanton, Turkiyyah (UW)	2004-2008
PEER Center	<i>Modeling of Structural Damage for Old RC Components</i>	\$145k (\$145k)	PI	2003-05

NSF	<i>Workshop for FEARCS: Simulation of Collapse of Concrete Structures: From Research to Practice</i>	\$30k (\$30k)	PI	2003-2004
PEER Center	<i>Van Nuys Testbed Simulation</i>	\$150k (\$150k)	PI	2001-2003
PEER Center	<i>Modeling of Structural Damage for Old RC Components</i>	\$65k (\$65k)	PI	2000-2002
Office of Tech. Licenses, Stanford	<i>Fiber-Optic Sensors for ModelBased Simulation and Health Monitoring of Civil Structures.</i>	\$25k (\$12.5k)	Co-PI PI: Deierlein (Stanford)	2000-2001
PEER Center	<i>Development and Verification of a Bond-Zone Model</i>	\$110k (\$110k)	PI	1999-2002
Caltrans	<i>Seismic Response of Anchored Headed Reinforcement</i>	\$40k	Co-PI PI: Lehman Admin: Moehle (UCB)	1998-2000

DOCUMENTATION OF TEACHING ACTIVITIES

Courses Taught & Enrollment (2016-2026)

Course	Title	Quarter	Credit Hrs	Enrollment
CEE 452	Design of RC Structures	F25	3	56
CEE 506	Nonlinear Analysis	SP26	3	21
CEE 457	Advanced Structures I	W26	3	23
CEE 452	Design of RC Structures	F25	3	36
CEE 506	Nonlinear Analysis	SP24	3	9
CEE 457	Advanced Structures I	W24	3	15
CEE 452	Design of RC Structures	F23	3	19
CEE 337	Construction Materials	SP23	5	45
CEE 457	Advanced Structures I	W23	3	18

CEE 337	Construction Materials	F22	5	44
CEE 102	CEE Careers	W21	1	24
CEE 500	CEE Seminar	SP20	1	21
CEE 102	CEE Careers	W20	1	24
CEE 102	CEE Careers	W19	1	53
CEE 500	CEE Seminar	W18	1	20
CEE 506	Nonlinear Analysis	SP17	3	11
CEE 457	Structural Analysis I	W17	3	38
CEE 506	Nonlinear Analysis	SP16	3	18
CEE 457	Structural Analysis I	W16	3	42

SERVICE

Departmental service

2026-	Community Outreach Committee Member
2022-	Faculty Mentor Committees (Member: Hegermiller)
2022-26	DEI Committee Member
2021-23	Strategic Planning Committee
2017-22	Department Chair
2015-17	Associate Chair
2014-15	CEE Structural / Geotechnical Engineering Hiring Committee
2013-15	Chair CEE Graduate Education Committee
2013-14	CEE Structural / Geotechnical Engineering Hiring Committee
2012-14	Faculty Mentoring Committees (Gough, Davidson)
2011-12	CEE Structural / Geotechnical Engineering Hiring Committee
2011-15	CEE Graduate Advisor, Structural Engineering and Mechanics Group
2008-11	Chair, CEE Awards Committee
2008-09	CEE Structural / Geotechnical Engineering Hiring Committee
2008-09	CEE Committee for Emeritus Office Space Policy
2006-07	CEE Strategic Hiring Plan Committee
2006-present	Chi-Epsilon Advisor
2006	Advisor for the Seismic Design Competition
2005-09	CEE Safety Committee Member
2002-04	CEE Executive Committee Member
Spring 2003	Coordinator for Structures Group Graduate Student Recruiting Weekend
Fall 2003	CEE Undergraduate Curriculum Review Committee
2001	Organizer for 2001 Evan's Lecture

College service

2025	<i>Chair</i> , Mechanical Engineering Department Chair Review Committee
2023	<i>Chair</i> , COE AA Department Review Committee
2022-23	COE Implementation Lead for Public Good
2022	COE <i>Chair</i> , ME Department Search Committee

2018 COE *Chair*, A/B Salary Committee
2016 COE *Member*, Leadership Development Committee
2001 CEE *Member*, Chair Search Committee Member

University service

2024 - *Director of Training and Education*, UW Center for Disaster Resilience Communities

Professional society service

2025 - *Present: Member*, American Concrete Institute - Committee 318: Building Code Requirements. 2025-present. ACI Committee 318 is responsible for developing and publishing the "Building Code Requirements for Structural Concrete" (ACI 318). This code provides minimum requirements for the design, construction, and detailing of structural concrete buildings and other structures and is used in more than 65 countries.

2025 – *Present: Member*, American Concrete Institute – Subcommittee 318-H: Seismic Provisions. 2025-present. The committee is responsible for developing recommendations for changes to the ACI 318 Building Code that address design and detailing of concrete structures for seismic loading.

2024 - *Present: Associate Editor*, *ACI Structural Journal* Activities include identifying reviewers, managing the review process, and making final recommendation to the editor regarding publication for submitted manuscripts addressing behavior, design and analysis of concrete structures.

2024 – *Present: Member*, American Concrete Institute - Committee 369S: Seismic Repair and Rehabilitation Code. The committee is responsible for developing and maintaining code requirements for the seismic evaluation and retrofit of existing buildings; these Code requirements are included, by reference, in the ASCE 41 Standard. Committee activities include developing recommendations for modeling concrete structures for evaluation of existing buildings.

2019 – *Present: Member*, American Concrete Institute – Subcommittee 318-C: Safety, Serviceability, and Analysis. 2014-present. The committee is responsible for developing recommendations for changes to the ACI 318 Building Code that address safety, serviceability and analysis of concrete structures.

2008 – *Present: Member*, American Concrete Institute - Committee 369: Seismic Repair and Rehabilitation. Activities include development of recommendations for modeling concrete structures for seismic evaluation of existing buildings.

2025 – *Associate Member (Chair 2003 – 2006, Member: 2006-2025 and 2000 - 2003)*, American Concrete Institute - American Society of Civil Engineering Committee 447, Finite Element Analysis of Reinforced Concrete Structures.. Activities include: organizing semi-annual meetings, supporting the development of committee documents.

2021-2022 *Member*, NHERI Science Plan Task Group.

2010-2016: *Associate Editor*, *Journal of Structural Engineering*, American Society of Civil Engineering. Activities include identifying reviewers, managing the review process, and making

final recommendation to the editor regarding publication for submitted manuscripts addressing earthquake engineering and analysis of concrete structures.

2003-2008: *Member*, American Concrete Institute - American Society of Civil Engineering Committee 445, Sub-Committee A: Shear and Torsion: Strut-and-Tie Modeling of RC Structures. 2003-2008. Activities include: development of guideline for use of strut-and-tie modeling to support design of structures for earthquake loading.

2003: *Member*, ASCE/SEI 2003 Structures Congress Organizing Committee

2003: *Member*, ASCE 2003 Structural Mechanics Conference Organizing Committee

International, national or governmental service - need to add promotion reviews

2025-26, *Chair*, 13th National Conference on Earthquake Engineering Organizing Committee

2024-25, *Member*, NHERI Computational Symposium Organizing Committee

2024, Doctoral Examiner, University of Canterbury, New Zealand

2023-24, Doctoral Examiner, University of Auckland, Waipapa Taumata Rau, New Zealand

2023-24, *Chair*, NHERI Computational Symposium Organizing Committee: With support from NHERI SimCenter staff and the NHERI Symposium Organizing Committee, manage all aspects of the Symposium including event planning, program planning, abstract review and travel awards.

2022, *Member*, Organizing Committee for the 2022 PEER Annual Meeting

December 2022, NSF, Proposal Panel Review

March 2020: *Member*, University of Delaware, Department of Civil and Environmental Engineering, External Review Team

February 2020: *Member*, UC Davis Dept. of Civil and Env. Engineering Visiting Committee

August 2020: *Member*, Paper Award Committee, ACI

May 2016, NSF: CMMI, Review Panel

Fall 2015, *Member*, Organizing Committee for the 2015 PEER Annual Meeting

April 2011, NSF: CMMI, Review Panel

December 2011 – 2014: Member of the Network for Earthquake Engineering Simulation Community and Communication (NEEScomm) Simulation Steering Committee. The Simulation Steering Committee (SSC) is charged with establishing a vision and implementation plan for simulation with the NEES community, increasing awareness within the NEES community of developments and use of simulation, and providing input to NEEScomm on policy and resource needs to support simulation research and technology transfer within the community.

December 2009 – 2012: Member of the Network for Earthquake Engineering Simulation Community and Communication (NEEScomm) User's Forum. The User's Forum is charged with providing input to NEEScomm leadership on network management and research. NEEScomm has an approximately \$20 million annual budget provided by NSF for management, operation, and maintenance of laboratory facilities and infrastructure for earthquake engineering research.

October 2005 – February 2008: Network for Earthquake Engineering Simulation (NEES) Consortium, Inc., Information Technology Strategy Committee (ITSC). The committee charge is with monitoring and advising the research activities of NEES Cyberinfrastructure Center (NEESit) to ensure that research activities result in products that will contribute to the advancement of earthquake engineering. NEESit has an approximately \$4 million annual budget provided by NSF and administered by NEES Consortium, Inc.

January 2006, Natural Sciences and Engineering Research Council of Canada: Reviewer for the Researcher Discovery Grant Program

May – December 2005: United States Geological Survey, Advanced National Seismic System, System Response Monitoring Committee. Activities supported the ANSS National Steering Committee by reviewing pre-proposals to recommend a short-list of instrumentation projects for which full proposals should be requested, reviewing full proposals to recommend a list of instrumentations projects to be funded through the ANSS, providing advice on any modifications in the criteria and process for following year.

May 2005, NSF: Concrete and Steel Structures, Review Panel

April 2005, University of Missouri: Reviewer for Research Board Grant Program

January 2005, Natural Sciences and Engineering Research Council of Canada: Reviewer for the Researcher Discovery Grant Program

April – December 2004, United States Geological Survey (USGS), Advanced National Seismic System (ANSS), Structural Instrumentation Guideline Committee. The ANSS is a USGS initiative to modernize and broadly expand earthquake monitoring and reporting in the United States. The Structural Instrumentation Guideline Committee developed guidelines identifying prioritize needs for data collected from ANSS monitored structures and geo-systems, provided procedures to identify and prioritize candidate structures and geo-systems, and provided recommendation on procedures and practices for instrumentation installation and operation.

March 2003, NSF: Network for Earthquake Engineering Simulation, Site Review Panel

December 2002, NSF: Network for Earthquake Engineering Simulation, Site Review Panel

January 2002, NSF: Network for Earthquake Engineering Simulation, Site Review Panel

June 2001, NSF: Sensors and Health Monitoring of Civil Structures, Review Panel

February 2001, NSF: U.S. - Japan Urban Earthquake Hazard Mitigation Program, Review Panel

April 1999, NSF: Major Research Instrumentation Program, Review Panel
